Art Unit:

Claims 3-8 are presented for examination.

The amendments and declaration filed on January 17, 2002 have been received and entered.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 3 is rejected under 35 U.S.C. 102 (b) as being anticipated by the Japanese patent

Application 8-169884. The Japanese Patent Application teaches the use of a MGluR1 antagonist in a pharmaceutical formulation for the treatment of cerebral infarction. See the entire translation. The use of an old composition for a new purpose does not create a patentably distinct use. See *In re Dillon*, 16 USPQ2nd 1897 at 1900 (CAFC 1990). The court sitting in banc ruled that the recitation of a new utility for an old and well known composition does not render that composition new.

Applicant's arguments and declaration have been carefully considered, but are not deemed to be persuasive regarding claim 3 for the above reasons.

Claim 4 will be allowable if it is submitted in an independent form. Claims 6-8 at present time are considered to be allowable.
